

## Nadia Posluszny

**Nadia Posluszny** is an incoming 3L at the University of Houston Law Center, where she serves as Managing Editor of the *Houston Law Review* and is active in the Intellectual Property Student Organization and the Association of Women in Law. She previously held leadership roles with The Advocates and the Nancy F. Atlas IP Inn of Court.

With a petroleum engineering degree from the University of Tulsa, Nadia is registered to practice before the USPTO. Before law school, she worked as a drilling engineer and site manager at Chevron. She later transitioned to IP law, working as a patent agent at Osha Bergman Watanabe & Burton while attending law school part time, focusing on patents in energy, mechanical, and AI technologies. This summer, she is clerking in IP litigation at Sheppard Mullin.

Nadia is passionate about increasing representation in IP law, especially in energy and tech. She mentors young women through STEM programs and Big Brothers Big Sisters, bringing a practical, inclusive perspective to the field.
